SUBJECT :

Fabrication of Prototype E & E Kits

25X1A

1. It is requested that six prototype Evasion and Survival Bailout Kits be fabricated and maintained within TSD for use in determining later procurement of operational kits. [redacted] this Division, will work closely with [redacted] in the design and selection of component items for such kits.

25X1A

2. It is understood by this Staff that the six prototypes will be packed with those items of survival peculiar to at least six geographical areas of operation. Hopefully, the items will have been procured from these areas. The general type of items desired in the kits has been discussed between [redacted] and [redacted]
